

EmoCodes: Training Clip Information and Disclaimers

Enclosed Materials:

- Clip – an MP4 file containing an excerpt from My Little Pony, Season 8, Episode 3. This clip can be loaded into Datavyu (<https://datavyu.org/>) for EmoCodes coding.
- Datavyu templates – Two OPF files, one with the objective codes column labels and one with the subjective codes column labels. These files can be opened in Datavyu for EmoCodes coding.
- Clip codes – a CSV file containing the original codes for that clip. Included are both the objective codes as well as the subjective codes (of the Pinkie Pie character). Use these codes as a comparison after you have coded the clip for yourself (see step 4 at <https://emocodes.org/training/> for more information)

Full Episode Synopsis:

Pinkie Pie learns that her sister Maud is dating a pony named Mudbriar, who has an interest in sticks similar to Maud's interest in rocks, and is as outwardly dull and blunt as she is. Although Maud and Mudbriar are happy together, Pinkie fails to notice their similarities, finding Mudbriar's personality and quirks to be annoying and strange. Unable to comprehend their relationship, Pinkie eventually becomes convinced that Maud prefers Mudbriar over her and flees to her family's rock farm in despair. After her sisters Limestone and Marble help her realize that Maud's happiness with Mudbriar is all that matters, Pinkie returns and makes peace with Mudbriar, putting up with him for Maud's sake.
